## You're Right In The Middle of the Battle

It's 1836. A battle for freedom is underway, and you're one of only 189 men, defending the Alamo, fighting for life and Texas independence.

This was the true Texas adventure. The start of a country, and history in the making. And now, you can step back in time and be a part of the action, at San Antonio's only high tech interactive experience - the Texas Adventure - only at the Alamo Special Effects Theater.

**Special Effects • Digital 3-D Images**

# Meet The Defenders. E

Hear their stories. Feel their courage. And see what freedom meant through their own eyes. The Texas Adventure special effects surround you on all sides, immersing you in history as it unfolds.

★Dodge Jim Bowies' famous knife!

★Stomp your feet while Davy Crockett plays the fiddle!

★Take cover as cannon fire explodes overhead!

Start your Alamo experience at the Texas Adventure, the only place where you can be a part of history right now!

## Behind The Scenes of the Interactive Technology

The Texas Adventure uses the latest advances in computerized show control technology to produce the amazing special effects that make this a one-of-a kind stage presentation. Over 165 dimmer channels control the special lighting effects during the show while the 4,800 watt stereo sound system makes the battle sounds come alive.

Over 100 uniquely designed special effects are presented on-queue to recreate the sensation of being in the middle of the Alamo Long Barracks on March 6, 1836. Lanterns shake, cannons blast, and the sky is illuminated with the fire of battle. Digital 3-D images are projected onto the stage through optics specially designed for the Texas Adventure. Today's technology takes you back in time to the most momentous event in Texas History!
